

Product Information Sheet

Mobile Diesel Transfer Kits

Mobile Diesel Transfer Tank Kits

- 100 - 1200 litre mobile diesel transfer tanks
- Equipped with 40 LPM, 12 volt pump kit
- Auto-shut off nozzle and swivel
- 6 metre delivery hose
- 4 meter power cable & earth strap
- Diesel grade polyethylene construction
- Strong poly lid to protect pump compartment
- Lockable fully enclosed pump compartment for protection and security
- Splash resistant breather
- Manufactured from specifically formulated diesel grade polyethylene that meets International Regulation ECE R34.01 requirements
- Optional - Higher volume pumps can be fitted

12 Volt Pump Kit
High flow 40 litres per minute, 6 metre delivery hose and automatic nozzle

Storage Tank
Strong construction, with lockable fully enclosed pump compartment

Ball Baffle System
Reduces fluid movement for improved load stability during transit. Fitted on 800, 1000 & 1200 litre models.

MODEL	Capacity	Dimensions	Flow Rate	Voltage (V)	Nozzle	Delivery Hose
DT100	100 litre	800 x 680 x 465	40 LPM	12 Volt	Automatic	4 metre
DT200	200 litre	1150 x 820 x 565	40 LPM	12 Volt	Automatic	6 metre
DT200T	200 litre	800 x 680 x 710	40 LPM	12 Volt	Automatic	6 metre
DT400	400 litre	1150 x 820 x 780	40 LPM	12 Volt	Automatic	6 metre
DT440	440 litre	1700 x 880 x 620	40 LPM	12 Volt	Automatic	6 metre
DT600	600 litre	1700 x 880 x 740	40 LPM	12 Volt	Automatic	6 metre
DT800	800 litre	1700 x 1000 x 860	40 LPM	12 Volt	Automatic	6 metre
DT1000	1000 litre	1700 x 1000 x 1025	40 LPM	12 Volt	Automatic	6 metre
DT1200	1200 litre	1700 x 1000 x 1190	40 LPM	12 Volt	Automatic	6 metre
